

TITLE : Get Your Copy of the Latest ConstructAfrica South Africa Construction Market Report for 2022

The African construction market is predicted to grow at a Compound Annual Growth Rate (CAGR) of more than 7.5% between 2022 -2027.

And with extensive natural resources, cheap labor, a fast-growing consumer market, and immense investment opportunities in energy and infrastructure, Africa will always be a target destination for many large economies.

ConstructAfrica has produced a special in-depth report on the construction market in South Africa.

But why invest in South Africa?

South Africa is the third-largest economy in Africa after Nigeria and Egypt. It is also the most technologically advanced, industrialized, and diversified economy on the continent.

In the construction market, infrastructure investment is the central pillar of the South African government's post-COVID-19 economic recovery plans.

Therefore, if you've been thinking about entering the South African construction industry, there's no better time.
