

Solar in Motion: The Future of Bulk Freight is Here

About Us

Epic Bulk is driving the future of freight with Solar in Motion — a breakthrough in solar-powered bulk transportation. We deliver high-volume logistics across South Africa using clean, renewable energy. Our solar fleet reduces emissions, cuts costs, and brings sustainable mobility to industries that move the nation. With Epic Bulk, green logistics isn't just a promise — it's already on the road.

Why Solar Logistics Matters

Solar logistics isn't just eco-friendly — it's smart business. Epic Bulk helps clients reduce emissions, save on fuel, and lead with purpose in a changing world.

Benefits of going solar with Epic Bulk

- ✓ Lower costs
- ✓ Fewer emissions
- ✓ Energy efficient
- ✓ Future-focused

Join the Movement

With Solar in Motion, Epic Bulk is not just delivering freight — we're delivering a future. One that's efficient, responsible, and powered by innovation. Let's move forward — together, with the sun.
